THE UNIQUE FEATURES OF ISLAND WOUND DRESSING

with  **Microban®**
antimicrobial product protection

Contains a broad-spectrum anti-bacterial agent that is effective against the following pathogens:

- Methicillin resistant Staphylococcus aureus (MRSA)*
- Acinetobacter calcoaceticus ATCC*
- Micrococcus luteus ATCC*
- Staphylococcus species ATCC*
(formerly a strain of Staphylococcus Epidermis)
- Escherichia coli ATCC*
- Enterobacter cloacae ATCC*
- Proteus vulgaris ATCC*
- Vancomycin resistant Enterococcus faecium (VRE)*
- Klebsiella pneumoniae ATCC*

Medwrap

vs.

Standard

*Safe,
Predictable
and
Cost-Effective*

Efficacy of the antibacterial agent will not diminish over time - compare to silver, iodophor, CHG and zinc.

The antibacterial agent has no known cytotoxicity - no documentation of adverse reaction to triclosan.

The only wound cover with antibacterial impregnated in the scrim - body fluids will neither deplete or transport the antibacterial agent from the incision site.

Our wound cover can remain in place longer than untreated dressings - dressing changes are only a function of the amount of exudate.

Unlike other antimicrobial wound dressings, MedWrap's Island Wound Dressing with Microban® protection provides potent protection against bacteria such as MRSA without the cytotoxicity, skin discoloration or leaching of pharmaceuticals into the wound seen in other, more costly wound covers. This dressing's design makes it easy to apply by clinicians, patients or family members. The dressing contains no latex.

The one choice for sterile wound dressing products!

AN OUNCE OF PROTECTION...

THE UNIQUE FEATURES
OF ISLAND WOUND DRESSING

with  **Microban**[®]
antimicrobial product protection

**Order
Today!**

**And Start Healing
Tomorrow!**

*Setting the standard
for post-surgical care...*

The IWD with Microban[®] protection not only provides basic wound protection, but also creates an optimal healing environment with respect to moisture and fluid pH to enhance re-epithelialization with moist, but not over saturated, dermal edges.

Did you know?

- ★ Nosocomial infection rates in US hospitals average between 2 and 3%.
- ★ 1 in 6 US hospital patients experience surgical site infections (SSI's).
- ★ SSI's prolong hospital stays by over 6 days and adds cost of \$3,089.
Legislation has passed or is pending in 28 states requiring hospitals to publish infection rates.
- ★ The 100,000 Lives campaign makes infection control a primary initiative.

Meet Medwrap™

John A. Dobos, D.D.S. (716) 874-1826

jdobos@islanddressing.com

A co-inventor of the IWD with Microban® protection, Dr. Dobos is a practicing dentist and has served as Team Dentist for the Buffalo Destroyers Arena Football Team, the Buffalo Blizzard Indoor Soccer Team and the Buffalo Stallions Indoor Soccer Team. Dr. Dobos has also served on the US-China Exchange Commission for a medical mission to China in 1987 and as Chief of Dental Surgery for Habitat for Humanity on a medical mission to Puno, Peru in 1996. He has a Bachelor of Science degree from Canisius College (1975), a Doctor of Dental Surgery degree from the State University of New York at Buffalo School of Dentistry (1979).

David T. Grana, CPA (716) 862-4270

dgrana@islanddressing.com

A certified public accountant and a founding member of Grana & Teibel, Mr. Grana has been substantially involved with the financing, business structuring and accounting for Medwrap Corp and its affiliates. He has a Bachelor of Arts degree with a concentration in accounting from Ohio Northern University (1977). Mr. Grana is licensed to practice as a certified public accountant in New York and Florida.

Ronald D. Mabry (716) 825-7710

rmabry@islanddressing.com

A co-inventor of the IWD with Microban® protection, Mr. Mabry is the President and owner of Flexo Transparent, Inc., a Buffalo, New York custom printer that converts and manufactures packaging materials for grocery and other retail lines. Mr. Mabry has been responsible for all aspects of the manufacturing of the IWD with Microban® protection, including the identification of qualified contract manufacturers and negotiation of arrangements with them. He has a Bachelor of Science in Industrial Administration from General Motors Institute (1974) and an MBA from Ohio State University (1979). Prior to acquiring Flexo Transparent in 1987, Mr. Mabry was the President and General Manager of Edlon Products in Avondale, PA, a Standard Oil of Ohio company.

David L. Roach (716) 834-9181

droach@islanddressing.com

A lawyer and founding member of Blair & Roach, LLP, a Western New York law firm. Mr. Roach has been substantially involved with the patenting, licensing and regulatory approvals for the IWD with Microban® protection. He has a Bachelor of Arts degree from Canisius College (1973) and a Juris Doctor degree from Harvard Law School (1976) and is a member of the New York and Florida Bars.
